Land Division
1400 Coliseum Blvd.
Montgomery, Alabama 36110-2059

Dear Mr. Hardy:

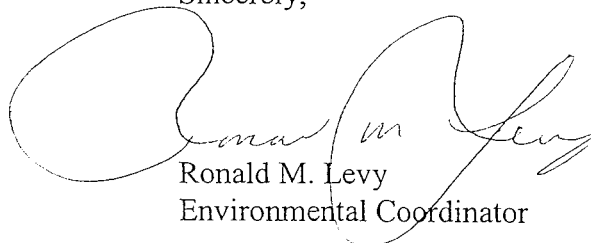

The Army is in receipt of your letter dated July 8, 2004 with the subject "Request for Information and Requirements for ADEM Notification". After reviewing the letter, the Army is concerned that ADEM mistakenly perceives that the Army has failed to include accurate information on munitions of explosive concern (MEC) found in the investigation or applicable historical finds of MEC prior to the investigation in MEC investigation reports. Although the Army is willing to provide reasonable information and notification that will serve a useful purpose and are not time/cost prohibitive, the Army has been unable to identify the requirement upon which the request is based and asks that ADEM identify the specific reasons for this request. It should be noted that the Contractor is expected to complete all field-work currently funded at Fort McClellan by July 29, 2004.

Several questions that the Army will need to discuss with ADEM prior to a final response/action on the request have arisen. Please contact this office at your earliest convenience to so that we might discuss.

Copies of this correspondence were provided to Mr. Dan Copeland, Huntsville, Corps of Engineers; Mr. Art Holcomb, TetraTech, Foster Wheeler; and Mr. Buddy Cox, Alabama Department of Transportation.

Point of contact for this action is Mr. Ronald M. Levy, (256) 848-6853 or e-mail ron.levy@us.army.mil.

Sincerely,

Ronald M. Levy
Environmental Coordinator
