Dear Mr. Levy:

The Environmental Protection Agency (EPA) has reviewed the subject document. EPA approves the subject document with the understanding that his work plan, as with any other work plan, does not guarantee the end of all investigation. Rather, we can anticipate that this work plan will hopefully provide sufficient information to end all investigation but that determination can not be made conclusively until the data from this work plan are collected and interpreted. If you have any questions, please call me at (404) 562-8549.

Sincerely,
