

Table 3-9

**Nonconformance to the Site-Specific Field Sampling Plan
Autocraft Shop/Former DPDO and Former Motor Pool Area 2100 North of DPDO
Fort McClellan, Calhoun County, Alabama**

IT Nonconformance to the SFSP	Justification for Nonconformance	Impact to Site Investigation
FTA-100-GP01 soil samples were not collected.	Proximity to underground utilities created unsafe drilling conditions.	The lack of data from this location did not affect the overall site investigation. Analytical data from nearby FTA-100-GP05 and historic site data were used during the risk screening process.

IT- IT Corporation.
SFSP- site-specific field sampling plan.
