

# National Dredging Quality Management Program (DQM)

## PRE-SITE-VISIT COVID-19 SURVEY

In order to protect both your personnel and ours from health risks related to COVID-19, it is important that we establish clear communication about expectations and precautions well prior to any site visit.

Therefore, the DQM Center requests that you complete the following survey to help us evaluate the procedures you have in place as well as our own procedures. In addition, we encourage you to ask your own questions of us, so that we can do everything possible to continue working together safely.

Contractor: \_\_\_\_\_

Plant Requesting QA Checks: \_\_\_\_\_  
*If Scow, Profile Type:*  Monitoring  Ullage

Proposed Date of Checks: \_\_\_\_\_ Proposed Location: \_\_\_\_\_

Dredge Contact: \_\_\_\_\_

---

1. **Visitor Screening**—How are you screening visitors? Do you require visitors to be vaccinated?
  
  
  
  
  
  
  
  
  
  
2. **Personnel Screening**—How are you screening staff? How frequently do you rescreen? Do you require staff to be vaccinated? What percentage of your crew is vaccinated?

- 
3. **PPE**—What coronavirus-related PPE requirements have you enacted?
  
  4. **Hygiene**—How, and how often, are you cleaning high-contact surfaces? How are you encouraging more frequent handwashing?
  
  5. **Social Distancing**—What efforts are you making to reduce gathering size and increase social distancing in high-traffic/high-occupancy areas?
  
  6. **Policy Enforcement**—How are you enforcing these policies?
  
  7. **Auditing Frequency**—How are you evaluating these policies to ensure that they are working and relevant to changing conditions?
