TECHNICAL SUPPORT BRANCH

NAVIGATION BULLETIN NO. 13-24

NOTICE TO NAVIGATION INTERESTS:

GULF INTRACOASTAL WATERWAY, FLORIDA

Reference Navigation Bulletin Nos. 13-19, 13-21, and 13-23.

Notice is given to mariners that Inland Dredging Company's dredge "INTEGRITY" completed dredging the channel blockage at Mile 263. The shoaled material immediately adjacent to the slope failure was completely removed; however, debris from the slope material may still lie outside the channel so mariners should use caution.

Some material from the slope failure migrated just east of the site leaving depths of 10 feet or greater, as shown on the attached hydrographic survey. This area will be periodically surveyed to monitor changes and the surveys will be posted on our website:

<http://navigation.sam.usace.army.mil/surveys/index.asp>

Mariners are urged to use extreme caution when transiting this area. For further information, please contact the U.S. Army Corps of Engineers, Panama City Site Office at (850) 784-9780.

Codes A3 and A10
