TECHNICAL SUPPORT BRANCH

NAVIGATION BULLETIN NO. 19-12

NOTICE TO NAVIGATION INTERESTS:

COFFEEVILLE, DEMOPOLIS, AND SELDEN LOCKS
BLACK WARRIOR AND TOMBIGBEE WATERWAY, ALABAMA

Due to high water conditions, there is significant outdraft to the spillways in the upper lock approach areas at **Coffeeville, Demopolis, and Selden Locks**.

At Demopolis Lock, navigation lockage is temporarily limited to **daylight hours only** due to flood waters entering the upper lock gate machinery recess area. The duration of this restriction depends on still developing conditions.

Coffeeville Lock is currently operating at 24 hours, however, as the river levels continue to rise the lock could potentially change to daylight hours only operation.

All traffic is advised to exercise extreme caution when approaching the locks and keep in contact with the lock personnel during this time.

For additional information, contact **Mr. Anthony Perkins** at the **BWT/Alabama-Coosa Project Management Office (CESAM-OP-BA)** at **(205) 752-3571**.

Stephen S. Beams
Chief, Navigation Section
