TECHNICAL SUPPORT BRANCH

NAVIGATION BULLETIN NO. 19-64

NOTICE TO NAVIGATION INTERESTS:

APALACHICOLA, CHATTAHOOCHEE AND FLINT RIVER SYSTEM (ACF)

Reference Navigation Bulletin No. 18-77. Notice is given to mariners that based on the 10-day forecast for releases from Jim Woodruff Lock and Dam and subsequent forecasted stage at Blountstown gage, we are supporting a 7 foot navigation channel through April 30, 2019. The Blountstown gage is currently 17.56 feet and forecast to remain above 7 feet during this period.

Anyone anticipating using the system is encouraged to monitor the flow and water levels at the following website: <http://water.sam.usace.army.mil/>

Commercial mariners should schedule lockage appointments at the Jim Woodruff lock by calling (850) 663-4692 or (229) 723-3482. George W. Andrews and Walter F. George Locks remain closed due to mechanical failures.

Navigation Bulletins will be issued on a weekly basis throughout the navigation season to provide the latest water level and navigation information.

For additional information, contact Mr. Stephen Beams at the Mobile District Office (CESAM-OP) at (251) 694-4217 or (251) 281-3178.

STEPHEN S. BEAMS
