

## Notice to Navigation interests

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG.

February 28, 2018

TECHNICAL SUPPORT BRANCH

NAVIGATION BULLETIN NO. 18-10

NOTICE TO NAVIGATION INTERESTS:

**APALACHICOLA, CHATTAHOOCHEE AND FLINT RIVER SYSTEM**  
**(ACF)**

Notice is given to mariners that according to the ACF Water Control Manual dated March 2017, a 7 foot navigation channel will be supported on the ACF during the months of January through May when the composite stage for the system is in Zones 1 and 2. The critical Blountstown gage needed to support navigation is a 7.4 foot gage reading.

Based on the 10-day forecast for releases from Jim Woodruff Lock and Dam and subsequent forecasted stage at Blountstown gage, we are supporting a 7 foot navigation channel for the week of February 28 thru March 09, 2018.

Anyone anticipating using the system is encouraged to monitor the flow and water levels at the following website: <http://water.sam.usace.army.mil/>

To schedule a lockage, please call (229)-723-3482. Anyone anticipating a barge shipment on the system is encouraged to contact Carl Dyess at (251)-690-2570.

Additional Navigation Bulletins will be provided as conditions warrant.

  
For: CARL E. DYESS  
Chief, Navigation Section
