TECHNICAL SUPPORT BRANCH

NAVIGATION BULLETIN NO. 24-01

NOTICE TO NAVIGATION INTERESTS:

MOBILE HARBOR, AL

Notice is given to mariners that a temporary width restriction is being placed into effect for Mobile Bar Channel. This restriction is due to a shoal that developed along the east side in the vicinity of red buoy 14 (approximate stations 1990+00 to 1950+00) and stretches from the red toe to the channel centerline. The temporary width restriction will remain in effect until a dredge can be mobilized to the area and clear the shoal. A follow-up navigation bulletin will be published in the next two weeks with additional details regarding this shoal.

For further information, please contact the **U.S. Army Corps of Engineers, Irvington Site Office** at **(251) 957-6019**.

Mariners should exercise extreme caution when transiting this section of the Mobile Bar Channel. See below for the most recent survey of the area adjacent to RB14.
