**Reference to Navigation Bulletin 24-22**

Notice is given to mariners that the Black Warrior River has been reopened to navigation from River Mile 360 to the Bankhead Lock & Dam. The Alabama Power High Tension lines are no longer active and resting on the bottom of the river. Neither the plane nor the power lines pose a navigational risk at this time; however, mariners are advised to use extreme caution while transiting the area. Repairs to the overhead lines and plane's recovery will be addressed next week. A follow-up notice to navigation will be issued once more information becomes available.
