Mobile District

The U.S. Army Corps of Engineers has published a Scoping Report for the EIS/Master Water Control Manual Update for the ACF River Basin in Alabama, Florida, and Georgia

January 2009

During October 2008, the U.S. Army Corps of Engineers (USACE or Corps), Mobile District, conducted 5 public scoping meetings for preparation of an Environmental Impact Statement (EIS) regarding implementation of an updated *Master Water Control Manual for the Apalachicola-Chattahoochee-Flint (ACF) River Basin* (Master Manual) in Alabama, Florida, and Georgia. The meetings were held at the following locations:

- October 20, 2008—Apalachicola, FL
- October 21, 2008—Dothan, AL
- October 22, 2008—LaGrange, GA
- October 23, 2008—Marietta, GA
- October 29, 2008—Gainesville, GA

A total of 1,018 stakeholders participated in the 5 public scoping meetings. 2,269 comments from 643 individuals, organizations, and agencies and 2 petitions were submitted during the formal scoping period, which ended November 21, 2008. Comments were submitted to the Corps through all available options—U.S. Postal Service, email, Web site, fax, verbal transcription, or in person at one of the scoping meetings.

Comments received were categorized into 12 comment areas: Water Management Recommendations; Socioeconomics and Recreation; Biological Resources; Drought Operations; Water Quality; Water Supply; National Environmental Policy Act; Data, Studies, and Analytical Tools; Navigation; Hydropower; Flood Risk Management; and Other Resources. Some of the categories were further divided into subcategories to present the stakeholders' issues and recommendations more clearly.

To download the full scoping report, please visit the project website at www.acf-wcm.com/downloads. Completing the EIS and Master Manual update will take approximately three

years. A Notice of Availability (NOA) will be published in the Federal Register when the Draft EIS is available for public review (currently anticipated in spring 2010). Public meetings will also be held following publication of the NOA to solicit comments on the Draft EIS. Each comment and the corresponding response will be incorporated into the EIS. The Final EIS and Record of Decision are currently anticipated for publication in late 2011.

Issues identified during the scoping process

Issue	Number received
Water Management Recommendations	868
Socioeconomics and Recreation	404
Biological Resources	284
Drought Operations	191
Water Quality	155
Water Supply	117
National Environmental Policy Act	79
Data, Studies, and Analytical Tools	56
Other Resources	52
Navigation	28
Hydropower	26
Flood Risk Management	9

Throughout this process, the public can obtain information on the progress of the Master Manual update and the EIS at the project website (www.acf-wcm.com). Other specific questions may be directed to Mr. Brian Zettle, Mobile District, Environment and Resources Branch, Planning and Environmental Division, U.S. Army Corps of Engineers, Post Office Box 2288, Mobile, AL 36628-0001; telephone (251) 690-2115; fax (251) 694-3815; or email brian.a.zettle@usace.army.mil.
