NOTICE OF AVAILABILITY FOR THE

**CLAIBORNE AND MILLERS FERRY LOCKS AND DAMS FISH PASSAGE STUDY
DRAFT INTEGRATED FEASIBILITY REPORT AND ENVIRONMENTAL
ASSESSMENT**

MONROE AND WILCOX COUNTIES, ALABAMA

TO ALL INTERESTED PARTIES:

The U.S. Army Corps of Engineers (USACE), Mobile District requests your review and comment on the proposed Claiborne and Millers Ferry Locks and Dams Fish Passage Study. A copy of the draft integrated feasibility report is located on the following website: <https://www.sam.usace.army.mil/Missions/Planning-Environmental/Environmental-Assessments/>. The document is being circulated to resource agencies and interested members of the public for a 30 day comment period.

The Tentatively Selected Plan (TSP) (i.e. proposed action) is the construction of a natural bypass channel at both Claiborne and Millers Ferry Locks and Dams. Both bypass channels would be constructed along the right descending bank of the Alabama River with natural materials such as soil, riprap embankment protection, and stone weirs to create riffle pools. Millers Ferry Natural Bypass Channel includes control gate structures and two vehicular bridges. Coordination with the U.S. Fish and Wildlife Service and the Alabama State Historic Preservation Officer is ongoing.

Correspondence concerning this draft Integrated Report should be directed via email to heather.p.bulger@usace.army.mil or via mail to the District Engineer, U.S. Army Corps of Engineers, Mobile District, Attention: CESAM-PD-EI, Post Office Box 2288, Mobile, Alabama 36628, in time to be received within 30 days of date of this notice.

JEREMY M. LADART
Chief, Planning and Environmental
Division
