

ALLATOONA LAKE

CRITERIA FOR ELECTRICAL SERVICE AND EQUIPMENT

Electrical service and equipment leading to or on private mooring facilities or on Government property must not pose a safety hazard nor conflict with other recreational use. All new electrical lines will be installed underground. Electrical installations must be weatherproof, equipped with ground fault circuit interrupter, and meet all current applicable codes and regulations. The facility must be equipped with a quick disconnect mounted above the flood pool elevation. All electrical installations must conform to the National Electric Code requirements for wet locations, marinas and boatyards, and all state and local codes and regulations. A copy of the electrical certification must be provided to the Project Manager before a Shoreline Use Permit can be issued or renewed. The Project Manager will require immediate removal or disconnection of any electrical service or equipment that is not certified, does not meet code, or is not safely maintained. Existing overhead lines will be allowed, as long as they meet all applicable electrical codes, regulations, and above guidelines, to include compatibility and safety related to fluctuating water levels. When extensive repairs to overhead electric service are required, it will be necessary to convert them to underground installations. Docks with electrical service may not be moved from shore as the lake recedes, unless electrical service is disconnected.

CERTIFICATION

I certify that this electrical system, as installed, complies with the National Electric Code requirements for wet locations, marinas and boatyards, as well as Corps of Engineers requirements outlined above.

This certification covers:

_____ Electrical service terminating on Pole above Elevation 840.

_____ Electrical service terminating on Dock or Boathouse.

_____ Electrical service terminating on Floating Cabin, Permit # FC _____.
(Includes all electrical system in / on the floating cabin.)

Electrical system installed on Government property adjacent to

Lot _____, in _____ Subdivision, under

Permit/License # _____, expiring on ____ / ____ / ____.
