**B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND:** Property, including three areas depicted as stock ponds on the USGS topographic map, was investigated for presence of waters of the U.S. Investigation indicates there are only uplands located in review area. Former stock ponds are no longer utilized as such, do not hold water, and do not meet the parameters of a wetland.

<sup>1</sup> This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.
