¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.

B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND: Based on review of available desktop resources including Web Soil Survey mapping, USGS topographic mapping, and historic aerial photography, the project area consists of upland/non-wetland, dry lands. Aerial photography and other desktop resources show that no streams, wetlands, or other WOUS are present in the sewer pump station/lift station review area. Review area is in a dry land median area in the parking lot of existing Glenwood School in Phenix City adjacent to a highway.
