<sup>1</sup> This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.

**B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND:** Based on a review of available desktop resources including Web Soil Survey mapping, USGS topographic mapping, USFWS wetland mapping, aerial photography, and site plan drawings, the JD review area, which is limited to the project construction boundaries, consists of upland/non-wetland, dry lands. Evaluated desktop resources, and information provided by the City of Talladega indicate no wetlands, streams, or tributary features in the review area of the proposed splash pad construction, parking area renovation and expansion, and building renovation in the existing municipal golf course/park facility in Talladega, Alabama.
