<sup>1</sup> This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.

**B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND:** Based on review of available desktop resources including Web Soil Survey mapping, USGS topographic mapping, aerial photography, current site-specific photos, and documentation provided by/on behalf of the requestor, the JD review area consists of 6.34 acres of upland/non-wetland, dry lands. Aerial photography and site photographs show the JD review area consists of a 6.34-acre undeveloped, previously clearcut parcel. Desktop resources evaluated also indicate the JD review area lacks any streams or tributary features.
