 Photographs: Aerial (Name & Date): Color aerial photos and topo maps provided by applicant
 or Other (Name & Date): Site specific color digital photos dated 07 February 2020, provided by applicant
 Previous determination(s). File no. and date of response letter: [Click here to enter text.](#)
 Applicable/supporting case law: [Click here to enter text.](#)
 Applicable/supporting scientific literature: [Click here to enter text.](#)
 Other information (please specify): [Click here to enter text.](#)

¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.

B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND: Based on review of available desktop resources including Web Soil Survey mapping, topographic mapping, and historic aerial photography, the project area consists of upland/non-wetland, dry lands. Aerial photography review shows the area that would be impacted by the currently proposed project as being a residential yard.
