NAVIGABLE WATERS PROTECTION RULE**

I. ADMINISTRATIVE INFORMATION

Completion Date of Approved Jurisdictional Determination (AJD): 2/19/2021

ORM Number: SAM-2020-01015-ELB

Associated JDs: N/A

Review Area Location¹: State/Territory: AL City: Opp County/Parish/Borough: Covington County

Center Coordinates of Review Area: Latitude 31.2897 and 31.2922 Longitude -86.2225 and -86.2229

II. FINDINGS

A. Summary: Check all that apply. At least one box from the following list MUST be selected. Complete the corresponding sections/tables and summarize data sources.

- The review area is comprised entirely of dry land (i.e., there are no waters or water features, including wetlands, of any kind in the entire review area). Rationale: A desktop review was conducted for the boundaries within Meadowwood Parcels 1 and 3 which comprise of review area boundaries of 8.60-acres and 15.95-acres, respectively, of undeveloped cleared agricultural property. The final determination will be limited only to the 8.60-acre and 15.95-acre sections within the larger property. The desktop review indicates the review area is comprised of uplands with no jurisdictional waters including wetlands within. Land use is agricultural and is bordered on the west by mixed hardwood forested and mixed hardwood forested wetlands adjacent to Cripple Creek tributary, and on the north and east by Veterans Memorial Parkway and Highway 9. On-site soils are shown to be well drained non-hydric profiles indicative of ridges or summit terraces including Cowarts-Dothan complex. Wetland delineation data and site photos provided by the agent indicate no hydrology nor hydrophytic plant species are present within the review areas. Dominant vegetation within the review boundaries comprises FAC and UPL species including Liriodendron tulipifera, Ligustrum sinense, Cyperus rotundus, and Smilax rotundifolia.
- There are “navigable waters of the United States” within Rivers and Harbors Act jurisdiction within the review area (complete table in Section II.B).
- There are “waters of the United States” within Clean Water Act jurisdiction within the review area (complete appropriate tables in Section II.C).
- There are waters or water features excluded from Clean Water Act jurisdiction within the review area (complete table in Section II.D).

Territorial Seas and Traditional Navigable Waters ((a)(1) waters): ³			
(a)(1) Name	(a)(1) Size	(a)(1) Criteria	Rationale for (a)(1) Determination
N/A.	N/A.	N/A.	N/A.

¹ Map(s)/figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District’s list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD Form.

III. SUPPORTING INFORMATION

A. Select/enter all resources that were used to aid in this determination and attach data/maps to this document and/or references/citations in the administrative record, as appropriate.

Information submitted by, or on behalf of, the applicant/consultant: [Wetland delineation report with data sheets, conducted by agent Wetland Services, LLC, September 28, 2020](#)

This information is sufficient for purposes of this AJD.

Rationale: [N/A](#)

Data sheets prepared by the Corps: [Title\(s\) and/or date\(s\)](#).

Photographs: [Aerial and Other: Photographs provided by the agent; Google Earth aerial imagery, 2021](#)

Corps site visit(s) conducted on: [Date\(s\)](#).

USFWS NWI maps: [Covington County, 2021](#)

USGS topographic maps: [Covington County, 2021](#)

Other data sources used to aid in this determination:

Data Source (select)	Name and/or date and other relevant information
USGS Sources	Topographic, LIDAR, Hillshade
USDA Sources	N/A.
NOAA Sources	N/A.
USACE Sources	N/A.
State/Local/Tribal Sources	N/A.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.
