¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.

B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND: Based on review of available desktop resources including Web Soil Survey mapping, topographic mapping, and aerial photography, the review area consists of approximately 0.10-acre of upland/non-wetland, dry lands. Aerial and site-specific photography review shows the area that would be impacted by the currently proposed project as being in a wooded area adjacent to the right-of-way of Alabama Highway 5 within a historically undeveloped forested area. The review area lacks any tributaries or drainage features.
