EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND: 3-acre review area contains a ditch dug in uplands draining only uplands with less than a relatively permanent flow of water; therefore, it is not a water of the U.S. Any flow contributing to the subject feature is from upland roadside ditches.

¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.
