¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.

B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND: Based on review of available desktop resources including Web Soil Survey mapping, topographic mapping, and aerial photography, the review area consists of approximately 0.25 acre of upland/non-wetlands, dry land that is already developed with buildings, paved driveways and parking lots, and sidewalks. The 0.25-acre review area lacks any wetlands, tributaries, or drainage features.
