MOBILE DISTRICT BOUNDARIES – CIVIL WORKS

Major Missions

Coastal/Inland Navigation

Recreation

Hydropower

Dredging

Flood Control & Disaster Response

Environmental

Engineering with Nature

MOBILE DISTRICT BOUNDARIES – MILITARY

Areas of Support

1. Defense Readiness

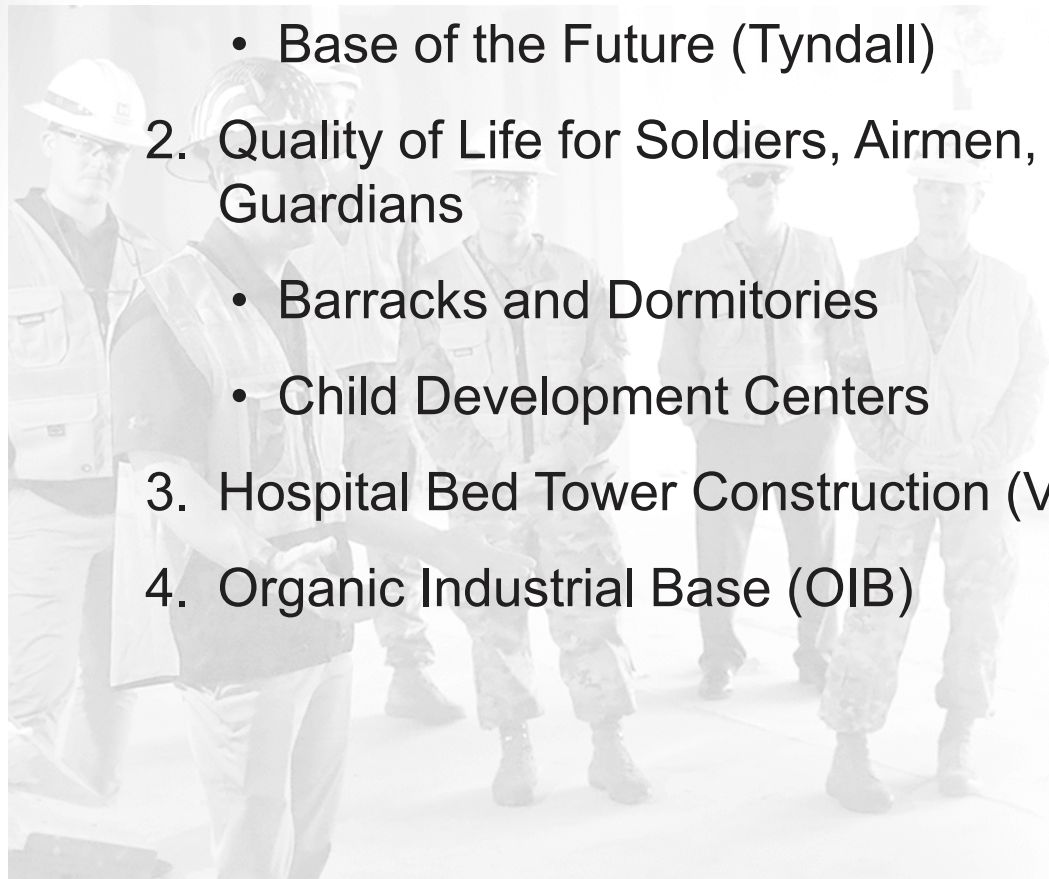

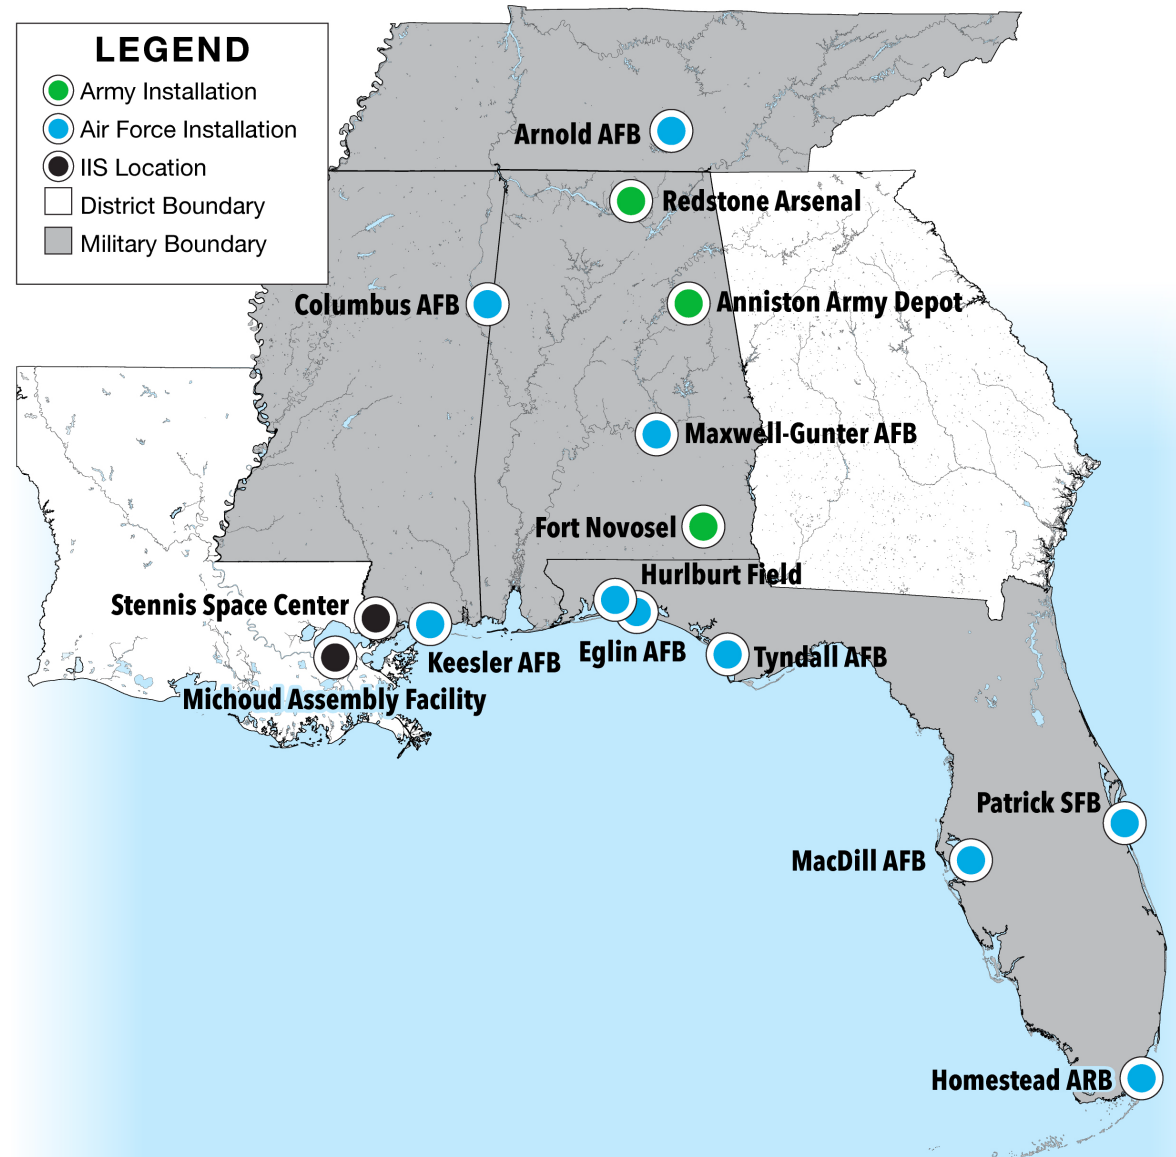

- Aviation Hangar Facilities
- Base of the Future (Tyndall)

2. Quality of Life for Soldiers, Airmen, and Guardians

- Barracks and Dormitories
- Child Development Centers

3. Hospital Bed Tower Construction (VA)

4. Organic Industrial Base (OIB)

USACE MAP OF CIVIL WORKS DIRECTORATE SUPPLEMENTAL PROGRAM

The Civil Works Directorate Supplemental Program is a \$44 Billion dollar program spread across five major appropriations that delivers infrastructure across all our mission areas. The missions' areas include flood risk management, navigation, and ecosystem restoration. You can select the link located below to view the thousands of supplemental projects our teams are delivering across the nation. Viewers can filter projects by location, Congressional District, public law, and project name. By clicking on the location marker or the "More Info" button a user can also view upcoming project milestones, project descriptions and a link to learn even more about the project, or the district delivering the project. The map is an evolving tool, and you are encouraged to explore its features and your suggestive improvements submitted to the development team are welcomed.

To access the map, click [HERE](#). Or click on the icon below.

For more about the supplemental program's implementation guidance and examples of successes to date, click [HERE](#).

DREDGING PROGRAM

Solicitation Number	Project Description	NAICS	Award	Value	Estimated Contract Award Date	Estimated Contract End Date
W91278-24-B-0001	Mobile Harbor Deepening & Widening, Phase 6 of the Mobile Harbor Navigation Project which consists of deepening and widening portions of the Upper Bay Channel and the Upper Bay Turning Basin (Choctaw Pass Turning Basin). The anticipated requirement for this effort will be for a bucket and scow. The Corps estimates 2.1M cubic yards of predominately sandy material will be dredged.	237990	SATOC	\$256M - \$100M	March-24	May-25
W91278-24-B-0002	USACE is implementing the Mobile Harbor Federal Navigation Project through a six phased approach. USACE is seeking a contractor to maintain the overall dredging schedule for this dual construction phase. Approximately 3.2 million cubic yards of material will be dredged from the remaining portion of the Bar Channel, including the bend easings. This also involves the Lower Bay Channel, and a portion of the widener will also be dredged to meet the completion of the project's goals. Various types of dredging material will be used on Sand Island requiring a cutterhead/pipeline dredge and a hopper dredge to meet the project's requirements.	237990	Full and Open	\$40M - \$60M	November-24	March-25

ON GOING MARKET RESEARCH

Project Title	Project Description	NAICS	Location	Estimated Value
Shock Applied Impact Laboratory	Seeking Small Business Contractors to perform Laboratory projects involving 6,000 square foot 1-story facilities w/concrete foundations, pre-engineered steel frame structural systems, insulated metal panel system, metal stud w/gypsum wall board walls, sloped metal roof system with insulation, and interior utilities (elect, fire suppression, plumbing and HVAC) to house firing instrument equipment for indoor experiments in high bay, control/office, unisex restrooms, lapping room, build room, mezzanine storage area, and communication area. Site improvements include landscaping, pavement, retention ponds, extended utilities, and all necessary support.	236220	Eglin, AFB	\$2.5M - \$7.5M
Defense Health Agency Program	Seeking Small Business Contractors able to perform O&M and Repairs within MEDCOM Program. The contractors must have a thorough understanding of and experience in complying with current codes and standards established by applicable accrediting Authorities Having Jurisdiction (AHJ) and The Joint Commission (TJC), the Association for Assessment and Accreditation of Laboratory Animal Care (AAALAC), as well as other applicable industry medical codes and standards governing the operation of a medical facilities and laboratories published by the National Fire Protection Association (NFPA). Small business contractors should be able to meet special requirements within a demanding work environment and willing to take risks performing work that may impact patient health and safety standards in exposing their own workers to toxins or infectious diseases. Extensive knowledge of functional operations of laboratory facilities and related equipment, facility support systems, and building structures associated with the facilities described within the MEDCOM program.	236220	Various Locations Thought the U.S. And Pacific Region	TBD

ON GOING MARKET RESEARCH

Project Title	Project Description	NAICS	Location	Estimated Value
Dredging	The U.S. Army Corps of Engineers, Mobile District, anticipates several dredging acquisitions during the future years. The USACE is seeking Small Business Contractors able to perform maintenance dredging of local and neighbor states inland river systems, coastal harbor rivers, and bays. Future acquisitions also involves rental and / or unit price dredging equipment for different size categories of dredges and for different types of dredges. The required minimum pump discharged diameters will be between 24” and 30” inches, measured from the inside diameter of the discharge side of the main dredge pump. The minimum horsepower applied to the main pump of 2400 / 5000 hp respectively. Additional requirement will be for trailing suction hopper dredges with a minimum hopper capacity of 3600 cubic yards. Small Business Contractors must manage a crew or staff and provide support equipment; such as, pipelines, booster pumps, tugs, tangle chains, and various floating plants, or other related supply items that would normally be expected to support dredging operations.	237990	Various Locations	\$2.5M - \$245M
Disposal of Dredging Material	The U.S. Army Corps of Engineers, Mobile District is seeking Small Business Contractors who can perform work consisting of dike raising, excavation, leveling, and stacking material, hauling out dried material, dewatering ditches, and constructing and installing weirs. Additional work includes constructing earthen berms in coastal waters, transporting material to coastal waters for marsh construction, construction of rock levees, and re-establishing small channels by snagging or mechanical/hydraulic dredging.	237990	Alabama along the Black Warrior Tombigbee Waterway and the Alabama River Lakes Waterway.	\$45M - \$50M
