

# SMALL BUSINESS OFFICE OUTREACH PROGRAM MOBILE DISTRICT FY 25 FORECAST

7 October 2024

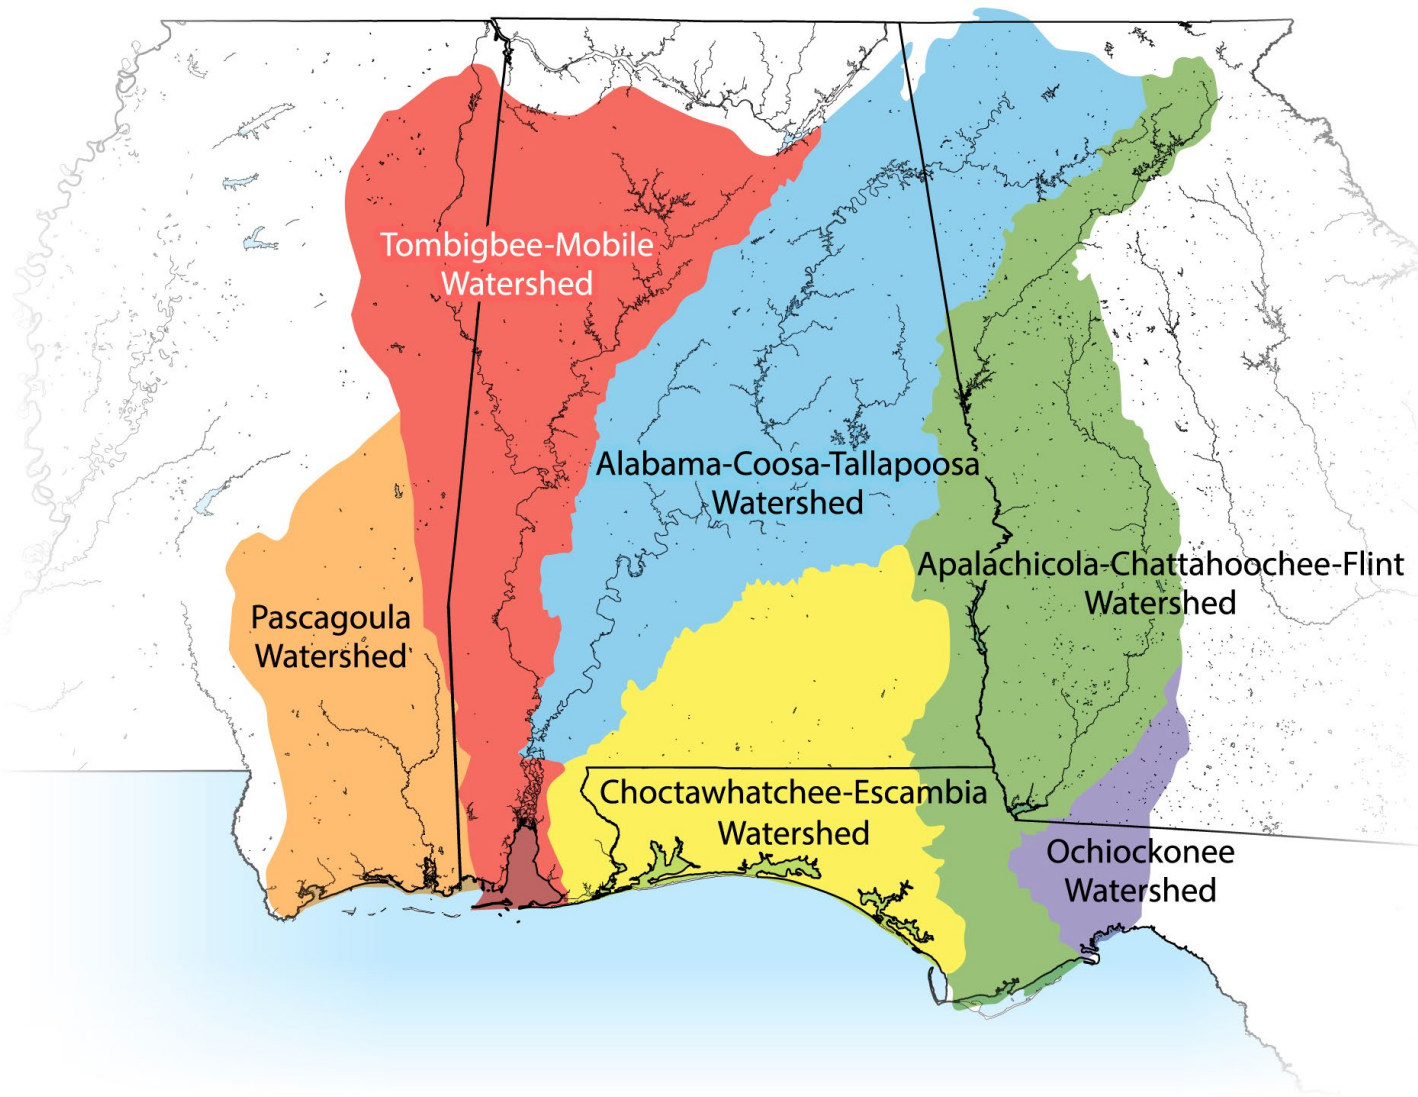

Sonya D. Rodgers (251) 690-3597  
Chief, Office of Small Business

US Army Corps  
of Engineers®  
Mobile District

# MOBILE DISTRICT BOUNDARIES – CIVIL WORKS

## Major Missions

Coastal/Inland Navigation

Recreation

Hydropower

Dredging

Flood Control & Disaster Response

Environmental

Engineering with Nature

# MOBILE DISTRICT BOUNDARIES – MILITARY

## Areas of Support

### 1. Defense Readiness

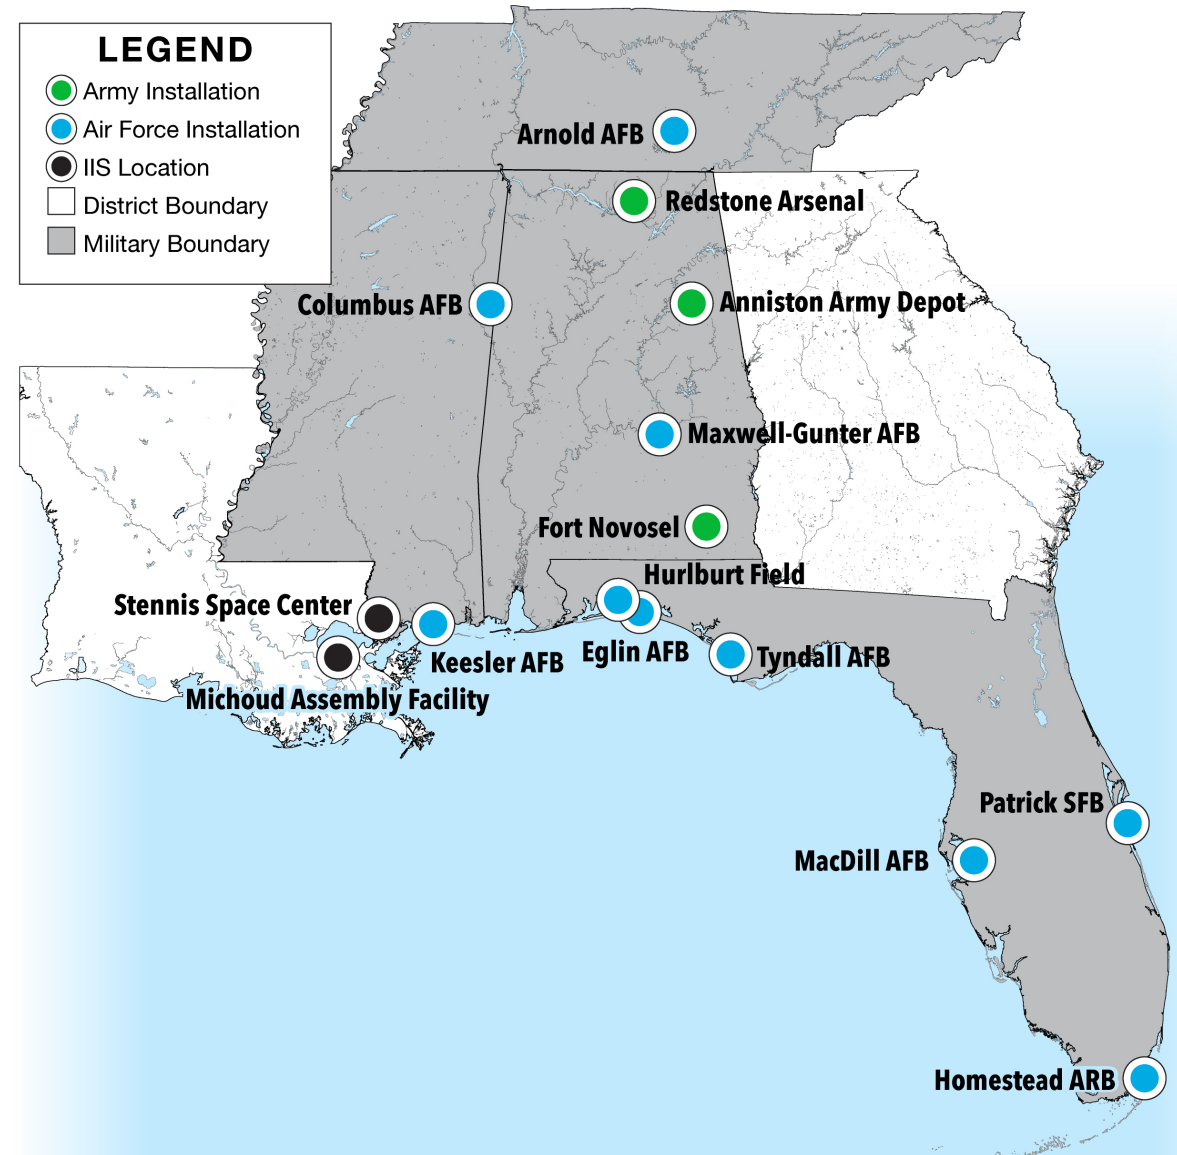

- Aviation Hangar Facilities
- Base of the Future (Tyndall)

### 2. Quality of Life for Soldiers, Airmen, and Guardians

- Barracks and Dormitories
- Child Development Centers

### 3. Hospital Bed Tower Construction (VA)

### 4. Organic Industrial Base (OIB)

# USACE MAP OF CIVIL WORKS DIRECTORATE SUPPLEMENTAL PROGRAM

The Civil Works Directorate Supplemental Program is a \$44 Billion dollar program spread across five major appropriations that delivers infrastructure across all our mission areas. The missions' areas include flood risk management, navigation, and ecosystem restoration. You can select the link located below to view the thousands of supplemental projects our teams are delivering across the nation. Viewers can filter projects by location, Congressional District, public law, and project name. By clicking on the location marker or the "More Info" button a user can also view upcoming project milestones, project descriptions and a link to learn even more about the project, or the district delivering the project. The map is an evolving tool, and you are encouraged to explore its features and your suggestive improvements submitted to the development team are welcomed.

To access the map, click [HERE](#). Or click on the icon below.

For more about the supplemental program's implementation guidance and examples of successes to date, click [HERE](#).

# PROGRAM TRENDS & OBSERVATIONS

## **Unprecedented times for USACE ... \$90B portfolio, workforce sized for \$30-35B portfolio**

- Strong MILCON & Civil Works appropriations support
- Aging Civil Works Infrastructure – Demopolis lock & others
- Other Federal agencies seeking USACE expertise

## **Industry Feedback/Proposal Observations**

- Impact of inflation, labor, material and global supply chains...30% price increase, lead times for key items, willingness to hold pricing
- Project Labor Agreement (PLA) requirements for construction contracts > \$35M

## **Growth Opportunities & Locations in Mobile District**

- MILCON – MacDill (KC46 & SOCOM), Columbus (T7 Fielding), Redstone (Space & Missile), Eglin, Patrick (Space Port of Future), Anniston Army Depot (Army Organic Industrial Base)
- Defense Health Agency – new market sectors and locations
- Environmental – AFFF, PFOS/PFOA, Optimized Remediation Contracts
- Civil Works – Coastal Resiliency, Design work for BIL and WRDA authorizations
- LATAM – Water Resource study-like efforts (Panama, Honduras)
- Interagency – Veterans Administration, NASA, Homeland Security

## **Key Acquisition Needs for FYs 24/25**

- Construction Contracts
- Replenish AE Capacity
- Defense Health Agency D-B and O&M
- Environmental
- Construction Management Services

# A&E & CIVIL WORKS & ENVIRONMENTAL SUPPORT PROGRAM

Solicitation Number	Project Description	NAICS	Set Aside	Value	Estimated Contract Award Date	Estimated Contract End Date
W91278-23-R-0061	USACE is seeking a contractor to design and construct complete and usable facilities that meets the RFP requirements. This Civil Work project requirements involve grading, drainage, stormwater infrastructure, utility systems, ecosystem restorations, marine structures, fire suppression systems, water and wastewater systems, small 1-story structures, bank stabilization, vegetation establishment, and other miscellaneous civil works items including rehabilitation, new construction, or a combination thereof.	237990	SB-Set Aside	\$49M	September-24	September-29
W91278-23-R-0071	USACE's Civil works boundaries. DB Construction, Civil Works Water and Sewer Line and Related Structures for USACE customers. The offeror response to civil works various projects that involve grading, paving, raw water systems intakes, treatment, and distribution, wastewater systems collection, treatment, reuse discharge, stormwater management systems, utility systems, fire suppression systems, small single-story structures, and other miscellaneous civil works functions.	237110	Small Business Set-Aside	\$49M	September-24	September-29
W91278-24-R-0015	A-E Services provided which support the Military Construction Design program under this contract will include, but are not limited to: renovation/repair projects, such as building renovations and additions, new construction, master and sub-area development planning, preparation of project definition and programming documents, charrettes, preparation of the technical portions of design-build solicitations, value engineering studies, environmental permit applications, facility condition assessments, and the development of construction plans and specifications for new vertical and horizontal construction projects. Most of the work is located in the Southeastern US; however, work can be in any location within the district's region.	541330	Unrestricted with Small Business Reserve	\$499 M	Mar-24	Feb-29

# A&E & CIVIL WORKS & ENVIRONMENTAL SUPPORT PROGRAM

Solicitation Number	Project Description	NAICS	Set Aside	Value	Estimated Contract Award Date	Estimated Contract End Date
W91278-23-R-0037	Delivery/Indefinite Quantity procurement to acquire Architect-Engineer (AE) AE services in support of Mobile District's Environmental Quality Program, specifically complex environmental compliance and pollution prevention projects. Required AE Environmental Services supporting the Environmental Quality Program, include but are not limited to all products and studies associated with complex environmental compliance and pollution prevention projects to include strategy development, plans, data gathering, analysis, evaluations, studies, designs and permitting action support for Mobile District's Military, Civil Works, and Support for Other Customers. The contractor should have the following disciplines, with professional registrations: (1) Project Manager; (2) Environmental Engineer (PE); (3) Chemist; (4) Geologist (PG); (5) Biologist; (6) Certified Industrial Hygienist (Certified/Registered); (7) Chemical Engineer (PE); (8) Certified Energy Manager (Certified/Registered); (9) Civil Engineer; (10) Air Quality Specialist; (11) Clean Water Act Specialist; (12) RCRA Specialist; (13) GIS Specialist.	541330	Full and Open with Small Business Reserve	\$249M with \$49M Set Aside for SB	Oct-23	Oct-28
W91278-24-R-0071	The Mobile District is seeking small business firms able to perform Architect-Engineer Services for Construction Management Services. A&E services will be performed primarily at federal and military installations throughout the Mobile Districts Area of Responsibility. The areas include the southeastern states, Central and South America. The required A&E Services will provide a full range of comprehensive support for the CMS program. Mobile District is seeking small businesses with experience with biddability and constructability reviews involving building construction projects, preparation of contract related documents and analysis involving construction and cost analysis, project schedules, or network analysis systems, delay impact analysis, claims and change order analysis, reviewing contractor submittals, shop drawing reviews, and quality assurance activities in connection to building construction inspection. This will be a Brooks Act selection based on qualifications in EP-715-17 Appendix J-3, paragraph 3.	54133	Full and Open with Total or Partial Small Business Set-Aside	\$99M	Sep-24	Sep-29

# MEDICAL SUPPORT & OTHER PROGRAMS

Solicitation Number	Project Description	NAICS	Set Aside	Value	Estimated Contract Award Date	Estimated Contract End Date
W91278-24-R-0006	The contractor shall provide Occupational Health Registered Nursing Services for the US Army Corps of Engineers, South Atlantic Division (SAD), Regional Occupational Health Center (ROHC) to maintain registered nurses to support routine staffing, temporary increases in workload, new mission support, reorganization support, short-term and part-time requirements, and workload fluctuations. Nursing services will be provided to Federal employees of participating agencies in accordance with the SAD ROHC Standard Operating Procedures (SOP), established standards, applicable Department of Defense (DoD), and Army specific regulations, directives, and policies and procedures. The South Atlantic Division areas of responsibility include Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Virginia, and Tennessee. Each ROHC clinic is a fully operational Occupational Health clinic. The ROHC will provide direction for Occupational Health services within the Region.	621399	WOSB Set-Aside	\$2.5M-\$3.5M	Nov-24	Oct-25
W91278-24-R-0079	The contractor will construct a new, two-lane paved bypass road along the northern boundary of existing test area (TA), range D-51 at Eglin Air Force Base. The new road will intersect Range road 218 at the southwest and northeast corners. The bypass road will be constructed outside of the controlled perimeter north of the range boundary. Construction will include land clearing and grubbing, rough and finish grading, earthwork, fill and compaction, drainage ditches, concrete culverts, hydro-seeding, new asphaltic concrete pavement, striping, signage, reflective pavement markers, and best management practices.	237310	8(a) Competitive	\$1M -\$5M	Oct-24	Apr-25

W91278-23-R-0015	American Creosote Words Superfund Site Pensacola, Escambia County, FL. Site remediation will include executing an existing design involving surveying, earth moving, landscaping, tree removal, fencing removal and replacement, excavation, installation of a subterranean wall.	237990	Small Business Set-Aside	\$25M - \$45M	Mar 24	Mar 26
W91278-23-R-0016	New construction at Operable Unit 2 (OU2) of the Escambia Wood Treating (ETC) Superfund Site, Pensacola, Florida. The Government is seeking qualified, experienced sources capable of performing Remediation of the ETC site will include but is not limited to executing an existing design involving surveying, earth moving, landscaping; installation operation of one of the following systems: Steam-Enhanced Extraction; Surfactant-Enhanced Aquifer Remediation (SEAR); In-Situ Chemical Oxidation (ISCO) or In-Situ Enhanced Biodegradation (ISEB) for treating groundwater and soil contamination.	237990	Small Business Set-Aside	\$25M - \$45M	Apr 23	Apr 26
W91278-23-R-0033	USACE missions in Alabama, Florida, Georgia, Mississippi, the Caribbean, and Latin America. CESAM is one of the largest and most active of the 38 USACE Districts in the Continental United States (CONUS).USACE has responsibility for investigating, developing, and maintaining the nation's water and related environmental resources; constructing and operating projects for navigation, flood control, major drainage, shore and beach restoration and protection, related hydropower development, water supply, water quality control, fish and wildlife conservation and enhancement, and outdoor recreation; responding to emergency relief activities directed by other federal agencies; and administering laws for the protection and preservation of navigable waters, emergency flood control and shore protection.	236220	Full and Open	\$100M - \$250M	Jan 24	Mar 26

# CONSTRUCTION PROGRAM

Solicitation Number	Project Description	NAICS	Set Aside	Value	Estimated Contract Award Date	Estimated Contract End Date
W91278-24-R-0010	USACE is seeking a contractor that can renovate three (3) existing aircraft hangars at MacDill AFB. The contractor must be able to provide all labor, materials, and equipment required to extend three KC-46-A aircraft hangars and alter their existing conditions to meet the specifications. The hangars must have corrosion control, tail door extensions, re-enforced foundation, structural steel frames, and the alteration work includes interior renovation to accommodate body fuel tank storage, plus increasing a variety of working maintenance areas. The work also includes the reconfiguration of existing fire suppression system, lighting and fall restraint system to accommodate the KC-46A aircrafts, along with other related improvements.	236220	Full and Open	\$50M - \$90M	April-24	September-26
W91278-24-R-0013	The U.S. Army Corps of Engineers, Mobile District is seeking a contractor able to construct a Research Lab along with associated facilities in Auburn, AI. The research facility will be for the United States Department of Agriculture, National Soils Dynamic Laboratory. The existing USDA-ARS Auburn Lab and Office facility, and other facilities' will be relocated from its current location to another location within the park area. The facilities include laboratories, greenhouse, headhouse, administrative support offices, sample preprocessing, and model fabrication facilities. Parking area construction, site grading, and vegetation clearing, plus construct a two-story Main Lab / Office Building to the required specification, including meeting various other construction requirements.	236220	Full and Open	\$25M - \$100M	March-24	February-26
W91278-23-R-0115	Consolidated Communications Facility, Patrick Space Force Base, FL. USACE seeking contractors to construct a 95,000 SF, three story Space communications facility. The proposed facility is the main communications hub at Patrick Space Force Base and critical to space launch mission.	236220	Full and Open	\$25M - \$100M	Dec-23	Aug-26

# CONSTRUCTION PROGRAM

Solicitation Number	Project Description	NAICS	Set Aside	Value	Estimated Contract Award Date	Estimated Contract End Date
W91278-23-R-0154	The U.S. Army Corps of Engineers, Mobile District, anticipates design and construction of approximately 5,500 sf replacement Working Dog Treatment Facility supporting military working dogs. The replacement Working Dog Treatment Facility will provide complete, preventive, diagnostic, dental and surgical care for Military Working Dogs (MWD). With clinical flow to accommodate modern veterinary practices. Supporting facilities include utilities, site improvements, parking, signage, antiterrorism force protection measures, demolition, and environmental protection measures.	236220	Full and Open	\$5M - \$10M	Feb-24	Oct-24
W91278-23-R-0141	Mobile District is seeking a contractor for the Nanofiltration Water Treatment Plant project located in in Gautier, MS. The project is the construction of the Nanofiltration Water Treatment Plant housed within a new building on a new concrete pad adjacent to the City of Gautier's existing Ion Exchange Plant. The contractor will install underground piping, construct the building enclosure and the concrete pad, construct the clean-in-place system, and install the sodium hypochlorite system (disinfection) and the electrical components necessary to run the Nanofiltration plant.	237110	Full and Open	\$1M - \$5M	Dec-23	Sept-25
W91278-24-R-0057	The USACE is seeking a contractor for a design-bid-build construction for the Replace portions of the existing north apron and perimeter taxi lane pavement with PCC pavement. On north apron, add 0.4M (15 inches) rigid pavement over base and asphalt shoulder to north apron to accommodate required KC-46A taxi and parking wingtip clearances. Also on north apron, alter existing asphalt to 0.4M (15 inches) rigid pavement over base. Work also includes installing aircraft hydrant fueling pits as well as associated fuel infrastructure, to include pump house modifications, to support 15 KC-46A aircraft parking spots. The project includes pavement striping, installation of 2 nose gear mooring points, airfield lighting, communication infrastructure relocation and all other supporting work necessary to make a complete and useable facility. The location is KC-46A ADAL Apron & Hydrant Fueling Pits MacDill Air Force Base, Florida.	237310	Full and Open	\$50M-\$100M	August-24	March-27

# CONSTRUCTION PROGRAM

Solicitation Number	Project Description	NAICS	Set Aside	Value	Estimated Contract Award Date	Estimated Contract End Date
W91278-23-R-0069	MDA Campus Von Braun IV, Ground Test Facility Infrastructure, Redstone Arsenal Data Center for the Missile Defense Systems. Convert 163,466 SF of existing administrative space five-story concrete and structural steel building. New construction includes a 1,722 SF exterior stairwell and a 14,138 SF one-story building expansion to house electrical gear for the new data center.	236220	Full and Open	\$120M - \$150M	Apr 24	Dec 25
W91278-23-R-0131	Roof Replacement Stennis Space Center, MS. USACE anticipates removing and replacing the roof at building 9101, located at SSC. Project will include removing the existing 300,000 SF metal roof system, replacing it with a new metal roof with a spray on roof coating. No ongoing activities at building 9101 can be interrupted for any reason and no roof openings will be allowed to exist overnight. The offeror will ensure that no debris or foreign objects can fall on any of the tenants of this building during construction.	238160	Full and Open	\$10M - \$25M	OCT 23	Dec 25
W91278-24-R-0003	The district is seeking a contractor for maintenance work located on Tyndall, AFB, FL that can provide maintenance of an office modular facility for the SACE. The work will consist of the Contractor furnishing all supervision, labor, materials, and equipment required to maintain the facility in a working condition by performing routine, regular scheduled and unscheduled.	561210	Small Business Set-Aside	<\$220K	May-24	May-29

# ON GOING MARKET RESEARCH

Project Title	Project Description	NAICS	Location	Estimated Value
Shock Applied Impact Laboratory	Seeking Small Business Contractors to perform Laboratory projects involving 6,000 square foot 1-story facilities w/concrete foundations, pre-engineered steel frame structural systems, insulated metal panel system, metal stud w/gypsum wall board walls, sloped metal roof system with insulation, and interior utilities (elect, fire suppression, plumbing and HVAC) to house firing instrument equipment for indoor experiments in high bay, control/office, unisex restrooms, lapping room, build room, mezzanine storage area, and communication area. Site improvements include landscaping, pavement, retention ponds, extended utilities, and all necessary support.	236220	Eglin, AFB	\$2.5M - \$7.5M
Defense Health Agency Program	Seeking Small Business Contractors able to perform O&M and Repairs within MEDCOM Program. The contractors must have a thorough understanding of and experience in complying with current codes and standards established by applicable accrediting Authorities Having Jurisdiction (AHJ) and The Joint Commission (TJC), the Association for Assessment and Accreditation of Laboratory Animal Care (AAALAC), as well as other applicable industry medical codes and standards governing the operation of a medical facilities and laboratories published by the National Fire Protection Association (NFPA). Small business contractors should be able to meet special requirements within a demanding work environment and willing to take risks performing work that may impact patient health and safety standards in exposing their own workers to toxins or infectious diseases. Extensive knowledge of functional operations of laboratory facilities and related equipment, facility support systems, and building structures associated with the facilities described within the MEDCOM program.	236220	Various Locations Throughout the U.S. And Pacific Region	TBD

# ON GOING MARKET RESEARCH

Project Title	Project Description	NAICS	Location	Estimated Value
Dredging	The U.S. Army Corps of Engineers, Mobile District, anticipates several dredging acquisitions during the future years. The USACE is seeking Small Business Contractors able to perform maintenance dredging of local and neighbor states inland river systems, coastal harbor rivers, and bays. Future acquisitions also involves rental and / or unit price dredging equipment for different size categories of dredges and for different types of dredges. The required minimum pump discharged diameters will be between 24” and 30” inches, measured from the inside diameter of the discharge side of the main dredge pump. The minimum horsepower applied to the main pump of 2400 / 5000 hp respectively. Additional requirement will be for trailing suction hopper dredges with a minimum hopper capacity of 3600 cubic yards. Small Business Contractors must manage a crew or staff and provide support equipment; such as, pipelines, booster pumps, tugs, tangle chains, and various floating plants, or other related supply items that would normally be expected to support dredging operations.	237990	Various Locations	\$2.5M - \$245M
Disposal of Dredging Material	The U.S. Army Corps of Engineers, Mobile District is seeking Small Business Contractors who can perform work consisting of dike raising, excavation, leveling, and stacking material, hauling out dried material, dewatering ditches, and constructing and installing weirs. Additional work includes constructing earthen berms in coastal waters, transporting material to coastal waters for marsh construction, construction of rock levees, and re-establishing small channels by snagging or mechanical/hydraulic dredging.	237990	Alabama along the Black Warrior Tombigbee Waterway and the Alabama River Lakes Waterway.	\$45M - \$50M
